Sub:- Nil demurrage in the month of May'2010

Dear Sir,

We would like to inform you that in May'2010 Kota Super Thermal Power Station had not paid any demurrage for the rakes received during the month of May'2010. Proper supervision undertaken at the time of loading to see that coal of proper size was loaded free from any extraneous matter helps KTPS in the above achievement. Proper arranging/ monitoring of rakes so that no bunching of rake at KSTPS yard also helped to unload all the rakes within the specified free time allocated by the Railways.

We would like to congratulate you and your teams at Bilaspur and Singrauli for having taken utmost care at the time of loading which helped us achieve this.

Let this be a bench mark of the type of service we expect from you.

Looking forward to many such endeavors, which will help us in reducing our demurrage.

Thanking you,

Yours Faithfully

12/7/2010
Chief Engineer (KSTPS)
